[54] CelesteJolicoeur (Female): "Yes. That's it. I have it. I know exactly what we're doing. Brace yourself, my dear. We're going to call this style *barbarian-chic.*"

[61] CelesteJolicoeur (Female): "One part mantiqueen chitin. Three parts hide from a raptidon's flank. And let's say - oh - eight strips of primal leather. No, make that ten. "
[62] Player: "I was expecting a simple modeling job."
[66] CelesteJolicoeur (Female): "We're revolutionizing the fashion of Byzantium. Our work is anything but simple."
[63] Player: "I'll get it done."
[117] Player: "The reward better be worth the risk."
[119] Player: "I'll come back when I've got something for you."
[120] CelesteJolicoeur (Female): "We're artists. If we're not willing to risk our lives for the sake of art, we should get out of the business."
[67] CelesteJolicoeur (Female): "My dear, I have the highest confidence in you."
[124] CelesteJolicoeur (Female): "Get this done for me, and I'll have you strutting about in a Jolicoeur Original. You will be the envy of Byzantium."
