[478] Player: "I found a data cartridge with details of UDL's secret experiments."
[982] sanjar_nandi (Male): "Excellent timing on your part. I worked my fingers to nubs, but I've finally completed the BOLT-52 form. I daresay it will be my second-greatest achievement, after the reformations."
[983] Celia (Female): "You're getting ahead of yourself again."
[985] sanjar_nandi (Male): "So I am. Do you have this cartridge?"
[990] Player: ""Reformations"? What, are you going to reformat everyone's files?"
[991] sanjar_nandi (Male): "That's just cruel. And inefficient."
[984] Player: "Not so fast. What're these "reformations" you're talking about?"
[993] sanjar_nandi (Male): "I'm working on a plan to reorganize the Board. Slowly. Peacefully. And with meticulous documentation."
[1027] sanjar_nandi (Male): "But that all comes later. First, I need to submit the BOLT-52. With that data you're holding, of course."
[1028] Player: "Oh, did I say I had a data cartridge? That's just what I call my left nut."
[1331] Player: "Come to think of it, maybe I don't..."
[1030] sanjar_nandi (Male): "That seems unnecessarily complicated. "
[1332] sanjar_nandi (Male): "I- I don't understand. Where is it?"
[1032] Celia (Female): "It's actually very funny, sir."
[1334] Player: "Not so fun having someone jerk your chain, is it?"
[1033] sanjar_nandi (Male): "Now I'm confused. Do you have evidence against UDL or not?"
[1335] sanjar_nandi (Male): "Is this about the BOLT-52? Please, I wasn't trying to mislead you."
[986] Player: "<Give him the UDL data.> Here you go."
[1336] sanjar_nandi (Male): "Anyway, I don't think I can handle this back-and-forth. I'm used to crushing disappointment, but not after having reason to hope. That makes it all considerably worse."
[1333] Player: "<Give him the UDL data.> Relax, I'm just teasing you."
[1337] Player: "<Give him the UDL data.> Calm down, I have it right here."
[480] sanjar_nandi (Male): "I knew there was something going on! This is exactly the proof we need - the Board will have to welcome us back now."
[725] sanjar_nandi (Male): "I'll transmit this data along with the completed BOLT-52 right away. After that, we'll sit back and quietly wait for the Board to respond."
