[68] Player: "Mantiqueen chitin. Raptidon hide. Primal leather. All done."
[69] CelesteJolicoeur (Female): "I've been thinking of a name for this new outfit. Chimaera. Crafted from the hides of three species of monster."
[70] CelesteJolicoeur (Female): "While you were gone, I put in an order for one of my bespoke lapels. Solid gold. Diamond encrusted. If it doesn't have one of my lapels, it's not a Jolicoeur Original."
[71] CelesteJolicoeur (Female): "Those slackwits at HPS are holding my parcel while they wait for a signature. Bureaucracy is so utterly insufferable. Be a dear and retrieve it for me?"
[73] Player: "You're asking a lot from me."
[74] CelesteJolicoeur (Female): "Understatement of the year, darling. Believe me, I'm every bit as frustrated as you are."
[75] Player: "Sure thing."
[125] Player: "Those monsters are forcing you to sign for a parcel? What a massive inconvenience."
[126] Player: "I've been all over the colony for you. Now you want me to deal with bureaucrats?"
[127] Player: "So have one of your assistants fetch your parcel."
[194] Player: "All right. I'll get you that parcel."
[130] CelesteJolicoeur (Female): "Can you believe the cheek on these people? If I didn't know any better, I'd say they were trying to grift an autograph out of me."
[129] CelesteJolicoeur (Female): "I know, my dear. You do spoil me. But this outfit is my masterpiece, and that lapel is my signature. I simply must have it."
[128] CelesteJolicoeur (Female): "My dear, I have only ever enjoyed the service of two reliable assistants in my life. The first is my muse, which is currently occupied. The second is you."
[76] CelesteJolicoeur (Female): "Wonderful! I'm giving you authorization to retrieve this parcel on my behalf. You truly are my savior, darling."
