[1] Captain_Irion (Male): "Tremendous work, friend! Here I was readying a daring maneuver, and you've come and saved me the trouble!"
[10] Irions_Medbot (Neuter): "Symptoms detected: elevated heart rate; dilated pupils; increased sweat production. Subject appears to be terrified."
[14] Captain_Irion (Male): "I'm not terrified, you bucket of bolts! That's victory sweat!"
[15] Player: "Captain Irion, I take it?"
[19] Player: "Sure, buddy. What were they after?"
[16] Captain_Irion (Male): "The one and only!"
[38] Captain_Irion (Male): "Wait, who's asking? Wanda didn't send you, did she?"
[21] Player: "She did."
[22] Captain_Irion (Male): "I swear - land on Groundbreaker even a moment tardy, and that busybody's already been up your ass an hour."
[26] Captain_Irion (Male): "You tell her these automechs are coming, and sending a hired stooge to rescue me from certain peril only furthers my delay! No offense."
[28] Player: "None taken. I'll let Wanda know her shipment's on the way."
[29] Player: "You ought to be thanking me. You're lucky you're alive."
[60] Player: "Any idea what those pirates were after?"
[51] Captain_Irion (Male): "Magnificent! And do please give Wanda my chilliest regards!"
[31] Captain_Irion (Male): "Yes, well, I shan't. Give Wanda my chilliest regards!"
[20] Captain_Irion (Male): "Meds, I'm guessing. Pirates love bits, and unlabeled meds are worth a bundle."
[32] Player: "What will you do now?"
[56] Player: "What corporation do you work for?"
[52] Player: "Who are these meds for?"
[35] Captain_Irion (Male): "Well. I've got some repairs to do -thankfully, I'm as skilled a mechanic as I am a violence resolution expert!"
[57] Captain_Irion (Male): "Not a damned one! I'm a free man - there isn't a corporate snake that can hold down the inimitable Captain Irion."
[53] Captain_Irion (Male): "Supposed to be for the Groundbreaker, but getting shot tends to hinder one's delivery plans."
[36] Captain_Irion (Male): "Then… to the Groundbreaker. Better late than never, I say! Unless you're very late. Then you might consider defaulting and skipping station. Those fees will bankrupt you."
