[1] CelesteJolicoeur (Female): "Ah-ah-ah. Don't speak. Hold that posture for a moment while I admire you. You have a natural contrapposto, my dear. "
[7] CelesteJolicoeur (Female): "The way you rest your weight against your hip suggests a certain rugged charisma possessed only by the mighty primal, and the well-traveled spacer. Splendid! I love it!"
[8] Player: "You can tell all that by the way I'm standing?"
[9] Player: "That's me. Rugged and well-traveled."
[86] Player: "There it is. The most pretentious thing I'll hear all day."
[12] CelesteJolicoeur (Female): "Your walk. Your posture. The cut of your clothes. You carry yourself with the bearing of a noble, but you dress like a barbarian. How deliciously outré!"
[15] CelesteJolicoeur (Female): "Ah, Celeste. You've done it again. I knew from the moment I laid eyes on you that I'd found my muse."
[87] CelesteJolicoeur (Female): "You're not afraid of speaking your mind. You smolder and growl. Oh, you are just too perfect."
[13] CelesteJolicoeur (Female): "I'm Celeste Jolicoeur. And you, my dear, are exactly what Byzantium needs."
[91] Player: "It's like you read my mind."
[93] Player: "Are you trying to sell me something?"
[92] Player: "What Byzantium needs is to be taken apart brick by brick."
[94] CelesteJolicoeur (Female): "Darling, you and that brutish swagger of yours have been on my mind the moment you stepped into my studio."
[95] CelesteJolicoeur (Female): "I'm an artist, darling, not a tweed merchant. I don't "sell things," I pollinate the world with art."
[96] CelesteJolicoeur (Female): "Yes! Perfect! That rakish audacity is exactly what I'm after."
[14] CelesteJolicoeur (Female): "I'm working on a new line of clothing that will shock this city to its core, and I'd like your help. What do you say, my dear? Care to make history with me?"
[98] Player: "You've got a pretty high opinion of someone you just met."
[99] CelesteJolicoeur (Female): "Everything I need to know can be deduced from a first impression."
[16] Player: "Sounds like fun. Count me in."
[138] CelesteJolicoeur (Female): "You're an outsider. You're exotic. You carry a whiff of barbarism and adventure. You're the embodiment of everything I want in my new line."
[101] Player: "What do you have in mind?"
[102] CelesteJolicoeur (Female): "You. When I look at you, I see the very embodiment of everything the walls of Byzantium were built to keep out."
[137] CelesteJolicoeur (Female): "Making an outfit worthy of you won't be easy. I'll need your help gathering the right materials."
[17] Player: "I'll think about it."
[139] Player: "All right. I'll help you out."
[19] CelesteJolicoeur (Female): "Consider it a standing offer."
[18] CelesteJolicoeur (Female): "Marvelous! You and I are going to wake this city up like a cold splash of wine to the face."
[36] CelesteJolicoeur (Female): "What I need is a survey of the outside world. What does the common laborer wear? How do the wild-eyed madmen of Monarch dress themselves? I've heard rumors, but I require samples."
[37] CelesteJolicoeur (Female): "Also, I expect you to model for me."
[38] Player: "What's the benefit of seeing me wear it?"
[39] Player: "Any excuse to admire my looks, huh? Can't blame you."
[40] Player: "I'm not much for modeling."
[41] CelesteJolicoeur (Female): "My dear, fashion is a performance art. An outfit without a body is like an instrument without a player. "
[42] CelesteJolicoeur (Female): "Oh, you cad. You'll be the talk of Byzantium once I'm done with you."
[43] CelesteJolicoeur (Female): "Trust me, darling. I've been at this business a lot longer than you."
[64] CelesteJolicoeur (Female): "I'll need you to model for me the following: the apparel of an Iconoclast, the armor of a marauder, and a full ensemble of spacer gear. Helmet included. "
[199] CelesteJolicoeur (Female): "And when I say "spacer gear," I mean an outfit worn by real spacers. None of that garbage Spacer's Choice peddles."
[44] CelesteJolicoeur (Female): "You have the bearing and demeanor of a born model. You're going to absolutely murder this job."
[45] Player: "Hold on. I need to know more about these outfits."
[48] CelesteJolicoeur (Female): "I expect you'll cut an exquisite figure. What else do you need to know?"
[103] Player: "You said something about an Iconoclast's outfit."
[107] CelesteJolicoeur (Female): "I've heard rumors of these Iconoclasts, half-mad zealots rampaging across the surface of Monarch. "
[108] CelesteJolicoeur (Female): "You'll have to find your own way into Monarch. I can't help you. Even if I could, I prefer not to interfere with your creative process."
[105] Player: "Where am I supposed to find spacer gear?"
[112] CelesteJolicoeur (Female): "If I were an enterprising spacer in need of a wardrobe, I'd probably head to the Groundbreaker."
[106] Player: "What's so interesting about marauder armor?"
[113] CelesteJolicoeur (Female): "I don't know. I've never seen a marauder. Not in person anyway. There are always aetherwave programmes, but I want something authentic."
[114] CelesteJolicoeur (Female): "Byzantium is long overdue for a change of wardrobe, my dear. Something barbaric, yet elegant."
[50] Player: "I'll see what I can do."
[59] CelesteJolicoeur (Female): "Fabulous! I can't wait to see what you dredge up."
