The 61st Annual Meeting of the Association for Computational Linguistics: Tutorial Abstracts

Proceedings of the Tutorial Abstracts

July 9, 2023
Introduction

Welcome to the Tutorials Session of ACL 2023.

The ACL tutorials session is organized to give conference attendees a comprehensive introduction by expert researchers to some topics of importance drawn from our rapidly growing and changing research field.

This year, as has been the tradition over the past few years, the call, submission, reviewing and selection of tutorials were coordinated jointly for multiple conferences: EACL, ACL, and EMNLP. We formed a review committee including the EACL tutorial chairs (Sameer Pradhan and Fabio Massimo Zanzotto) and ACL tutorial chairs (Yun-Nung Vivian Chen, Margot Mieskes, and Siva Reddy). A reviewing process was organized so that each proposal receives 2 reviews. The selection criteria included clarity, preparedness, novelty, timeliness, instructors’ experience, likely audience, open access to the teaching materials, diversity (multilingualism, gender, age and geolocation) and the compatibility of preferred venues. A total of 42 tutorial submissions were received, of which 6 were selected for presentation at ACL.

We would like to thank the tutorial authors for their contributions and flexibility while organising the conference in a hybrid format. Finally, our thanks go to the conference organizers for effective collaboration, and in particular to the general chair Yang Liu.

We hope you enjoy the tutorials.

ACL 2023 Tutorial Co-chairs
Yun-Nung (Vivian) Chen
Margot Mieskes
Siva Reddy
Organizing Committee

**General Chair**

Yang Liu, Amazon, USA

**Program Chairs**

Jordan Boyd-Graber, University of Maryland, USA
Naoaki Okazaki, Tokyo Institute of Technology, Japan
Anna Rogers, IT University of Copenhagen, Denmark

**Tutorial Chairs**

Yun-Nung (Vivian) Chen, National Taiwan University, Taiwan
Margot Margot, University of Applied Sciences, Darmstadt, Germany
Siva Reddy, McGill University and Mila, Canada
# Table of Contents

*Goal Awareness for Conversational AI: Proactivity, Non-collaborativity, and Beyond*
Yang Deng, Wenqiang Lei, Minlie Huang and Tat-Seng Chua ........................................ 1

*Complex Reasoning in Natural Language*
Wenting Zhao, Mor Geva, Bill Yuchen Lin, Michihiro Yasunaga, Aman Madaan and Tao Yu .... 11

*Everything you need to know about Multilingual LLMs: Towards fair, performant and reliable models for languages of the world*
Sunayana Sitaram, Monojit Choudhury, Barun Patra, Vishrav Chaudhary, Kabir Ahuja and Kalika Bali ................................................................. 21

*Generating Text from Language Models*
Afra Amini, Ryan Cotterell, John Hewitt, Clara Meister and Tiago Pimentel ......................... 27

*Indirectly Supervised Natural Language Processing*
Wenpeng Yin, Muhao Chen, Ben Zhou, Qiang Ning, Kai-Wei Chang and Dan Roth ............ 32

*Retrieval-based Language Models and Applications*
Akari Asai, Sewon Min, Zexuan Zhong and Danqi Chen .............................................. 41
