Preface

Natural Language Processing(NLP) has seen yet another milestone with the advent of generative AI and various other newer methods, techniques and approaches, such as Pre-trained Language Models, Transformer-Based designs, Multilingual NLP, Zero-Shot and Few-Shot Learning, Explainability and Interpretability, NLP for Low-Resource Languages and Applications of NLP in Biomedicine and Clinical Settings. These advancements have led to impressive improvements in various NLP tasks, such as Machine Translation, Speech Technology, Language Modeling, Sentiment/Emotion Analysis, Conversational Analysis and Question Answering (QA) to mention a few.

Another important trend is the exploration of representation learning methodologies and attention mechanisms, which have greatly enhanced natural language understanding in NLP. This has made it possible for the developments of systems which are able to read and analyze natural language with astounding precision, revolutionizing the field of Speech and Text understanding.

Rapid advancements in Artificial Intelligence (AI) and the explosion of generative AI - which can create text, photos and videos in response to open-ended prompts – has spurred sudden surge of application. This has resulted in industry- academia partnership to nurture the research ecosystem through funding, transfer of technology, development of products and promoting business through Start-ups.

In this 20th ICON held at Goa University, Goa, India during December 14-17, 2023 we received high quality paper submissions in all fields of NLP. The submissions were from across the globe. The conference proceedings embody papers selected for presentation in technical sessions of ICON 2023.

Our sincere thanks to all the reviewers for critically assessing the quality of the papers . Out of 174 submissions, a total of 93 papers were accepted. Amongst these, 30 were long papers and 63 were short papers, representing diverse research findings and covering a broad spectrum of topics within NLP and linguistics. In addition, the conference featured other events: 9 Tutorials, 1 Workshop, 1 Demo and 2 Shared Tasks. We had submission from 8 countries covering 4 language families. The papers were from the scheduled languages of India as well as from the non-scheduled languages of India such as Tulu and Khasi and from the tribal language Malasar.

We are grateful to Prof. Ruslan Mitkov, Lancaster University (UK), Prof. Josef Van Genabith, German Research Centre for Artificial Intelligence and Prof. Rajeev Sangal IIIT Hyderabad for accepting to be the keynote speakers and for their keynote lectures at ICON-2023.

We thank all the area chairs of ICON-2023, for the areas: Syntax and Semantics, Computational Psycholinguistics, QA, Information Extraction, Information Retrieval and Text Mining, Sentiment Analysis and Emotion Recognition, Language Resources and Evaluation, Speech, Multimodality, Machine Translation, NLP Applications, Machine Learning in NLP, Natural Language Text Generation, Doctoral Consortium Chairs, Shared Task/Tool Contest Chairs and the Workshop/Tutorial Chairs for their contribution in making this edition of ICON 2023 a success.

We sincerely express our gratitude to the team members Ramrao S. Wagh, Harip Khanapuri, Ramdas N. Karmali, McNeil Rodrigues, Hanumant Redkar, and many others from Goa University, Soumitra Ghosh, Ratnesh Joshi from IIT Patna and Patabhi R K Rao, Vijay Sundar Ram from Information Science Division of AU-KBC and Praveen from LTRC IIIT Hyderabad for their timely assistance in making ICON 2023 at Goa University a memorable success after COVID-19.

We also thank all the volunteers who assisted us in various activities of the conference. We are grateful to all the researchers, academicians, industry liaisons, and all the participants of ICON-2023 who responded to our call for papers, industry connect outreach, collocated shared tasks and workshop proposals, without whom the conference would not have been a success. We thank the reviewers who agreed to review the papers and enabled the quality review ecosystem. We also thank the session chairs for dedicating their valuable time to ICON-2023.

We extend our appreciation to our sponsors, Gold Sponsor: Augnito India Pvt. Ltd., Silver Sponsor: iHub-Data, IIIT Hyderabad, Bronze Sponsor: Adobe Research, TCS Research, Rikaian Technology Pvt. Ltd. for helping us in organizing the conference. We thank Government of Goa and NLP AI, our organizers, for their financial support.

We thank all the participants of ICON-2023 who contributed to the success of the conference.

Keynote Talk: Are rule-based approaches a thing of the past? The case of anaphora resolution

**Ruslan Mitkov
Lancaster University**

Abstract

In this talk I shall present the results of a study which evaluates and compares new variants of a popular rule-based anaphora resolution algorithm (Mitkov 1998, 2002) with the original version. We seek to establish whether configurations that benefit from Deep Learning, LLMs and eye-tracking data (always) outperform the original rule-based algorithm. The results of this study suggest that while algorithms based in Deep Learning and LLMs usually perform better than rule-based ones, this is not always the case, and we argue that rule-based approaches still have a place in today's research.

Keynote Talk: Who is Afraid of Spurious Correlation in Classification?

**Josef Van Genabith,
German Research Center for Artificial Intelligence**

Abstract

Often in NLP we are interested in training classifiers and classification where the signal we are trying to focus on is very subtle and weak, competing with many other signals in the data. Cases in point include stylometry, authorship and gender prediction, bias detection etc. Even though especially neural classifiers often exhibit surprisingly strong classification results in such applications, it is often an open research question (and a worry) whether and if so to which extent spurious correlations in the training data are responsible for some of the high classification accuracies. In this talk I focus on ways of quantifying the possible impact of spurious correlations in the training data on translationese classification. Translationese is a cover term for the subtle but systematic linguistic differences between texts resulting from (high-quality professional) translations and texts in the same genre and style but originally authored in the target language of the translations.

Keynote Talk: Challenges in Speech to Speech Language Translation: Prosody and Discourse

Rajeev Sangal
IIT Hyderabad

Abstract

Many scientific problems await work for successfully building speech to speech language translation (SSLT) systems. First, one has to analyze prosody as a part of automatic speech recognition (ASR), and pass it on as 'rich text' encoding, along with the output text transcript. The current ASR systems are legacy systems originally designed for producing dictations, and must be changed/updated to produce rich text.

Second, text to text machine translation (MT) systems have to learn to handle 'discourse', and must not be limited to handling single sentence at a time. In addition, the prosody information has to be passed on to the target language sentence or discourse segment.

Third, text to speech (TTS) systems, have to produce prosody present in the source language, conveying the same effect in the target language.

All this requires, the development of new metrics for ASR, MT and TTS, which take into account prosody as well as discourse.

The national mission on language translation of India has to be futuristic as well as practical in delivering working systems. Combining research questions with practical systems is a challenge that can be met by three virtuous cycles, combining research on the one hand, and startups and delivery on the other hand.

Table of Contents

<i>IMAGINATOR: Pre-Trained Image+Text Joint Embeddings using Word-Level Grounding of Images</i> Varuna Krishna Kolla, Suryavardan Suresh, Shreyash Mishra, Sathyanarayanan Ramamoorthy, ParthPatwa, Megha Chakraborty, Aman Chadha, Amitava Das, Amit Sheth	1
<i>Evaluating user preferences in Hindi Text-to-Speech</i> Bharat Gupta	19
<i>Multi-Hop Relation Aware Representations for Inductive Knowledge Graphs</i> AniruddhaBala, Ankit Sharma, Shlok Sharma, PinakiBhaskar	27
<i>Pronunciation-Aware Syllable Tokenizer for Nepali Automatic Speech Recognition System</i> Rupak Raj Ghimire, Bal Krishna Bal, Balaram Prasain, Prakash Poudyal	36
<i>Neural language model embeddings for Named Entity Recognition: A study from language perspective</i> MuskaanMaurya, Anupam Mandal, ManojMaurya, Naval Gupta, SomyaNayak	44
<i>Understanding behaviour of large language models for short-term and long-term fairness scenarios</i> TalhaChafekar, Aafiya Hussain, Chon In Cheong	52
<i>Identifying Intent-Sentiment Co-reference from Legal Utterances</i> PinakiKarkun, Dipankar Das	62
<i>An Annotated Corpus for Realis Event Detection in Short Stories Written in English and Low Resource Assamese Language</i> Chaitanya Kirti, Pankaj Choudhury, Ashish Anand, Prithwijit Guha	72
<i>Active Learning Approach for Fine-Tuning Pre-Trained ASR Model for a Low-Resourced Language: A Case Study of Nepali</i> Rupak Raj Ghimire, Bal Krishna Bal, Prakash Poudyal	82
<i>Dispersed Hierarchical Attention Network for Machine Translation and Language Understanding on Long Documents with Linear Complexity</i> Ajay Mukund S, K. S. Easwarakumar	90
<i>Analyzing Sentiment Polarity Reduction in News Presentation through Contextual Perturbation and Large Language Models</i> Alapan Kuila, Somnath Jena, Sudeshna Sarkar, Partha Chakrabarti	99
<i>NLI to the Rescue: Mapping Entailment Classes to Hallucination Categories in Abstractive Summarization</i> Naveen Badathala, AshitaSaxena, Pushpak Bhattacharyya.....	120
<i>Text Detoxification as Style Transfer in English and Hindi</i> Sourabrata Mukherjee, Akanksha Bansal, Atul Kr. Ojha, John P. McCrae, OndrejDusek	133
<i>Hindi Causal TimeBank: an Annotated Causal Event Corpus</i> Tanvi Kamble, Manish Shrivastava	145
<i>Enriching Electronic Health Record with Semantic Features UtilisingPretrained Transformers</i> Lena Al Mutair, Eric Atwell, Nishant Ravikumar	151

<i>Multilingual Multimodal Text Detection in Indo-Aryan Languages</i>	
Nihar Basisth, Eisha Halder, Tushar Sachan, Advaita Vetagiri, Partha Pakray.....	162
<i>Iterative Back Translation Revisited: An Experimental Investigation for Low-resource English Assamese Neural Machine Translation</i>	
Mazida Ahmed, Kishore Kashyap, Kuwali Talukdar, Parvez Boruah	172
<i>Issues in the computational processing of Upamālañkāra.</i>	
Bhakti Jadhav, Amruta Barbadikar, Amba Kulkarni, Malhar Kulkarni.....	180
<i>Impacts of Approaches for Agglutinative-LRL Neural Machine Translation (NMT): A Case Study on Manipuri-English Pair</i>	
Gourashyam Moirangthem, Lavinia Nongbri, Samarendra Singh Salam, Kishorjit Nongmeikapam	191
<i>KITLM: Domain-Specific Knowledge InTegration into Language Models for Question Answering</i>	
Ankush Agarwal, Sakharam Gawade, Amar Prakash Azad, Pushpak Bhattacharyya.....	202
<i>Neural Machine Translation for a Low Resource Language Pair: English-Bodo</i>	
Parvez Boruah, Kuwali Talukdar, Mazida Ahmed, Kishore Kashyap	295
<i>Bi-Quantum Long Short-Term Memory for Part-of-Speech Tagging</i>	
Shyambabu Pandey, Partha Pakray	301
<i>Sentiment Analysis for the Mizo Language: A Comparative Study of Classical Machine Learning and Transfer Learning Approaches</i>	
Mercy Lalthangmawii, Thoudam Doren Singh	308
<i>Bidirectional Neural Machine Translation (NMT) using Monolingual Data for Khasi-English Pair</i>	
Lavinia Nongbri, Gourashyam Moirangthem, Samarendra Salam, Kishorjit Nongmeikapam....	318
<i>Lost in Translation No More: Fine-tuned transformer-based models for CodeMix to English Machine Translation</i>	
Arindam Chatterjee, Chhavi Sharma, Yashwanth V P, Niraj Kumar, Ayush Raj, Asif Ekbal...	326
<i>Automated System for Opinion Detection of Breathing Problem Discussions in Medical Forum Using Deep Neural Network</i>	
Somenath Nag Choudhury, Asif Ekbal	336
<i>Effect of Pivot Language and Segment-Based Few-Shot Prompting for Cross-Domain Multi-Intent Identification in Low Resource Languages</i>	
Kathakali Mitra, Aditha Venkata Santosh Ashish, Soumya Teotia, Aruna Malapati	349
<i>Towards Large Language Model driven Reference-less Translation Evaluation for English and Indian Language</i>	
Vandan Mujadia, Pruthwik Mishra, Arafat Ahsan, Dipti M. Sharma	357
<i>1-step Speech Understanding and Transcription Using CTC Loss</i>	
Karan Singla, Shahab Jalalvand, Yeon-Jun Kim, Andrej Ljolje, Antonio Moreno Daniel, Srinivas Bangalore, Benjamin Stern.....	370
<i>Consolidating Strategies for Countering Hate Speech Using Persuasive Dialogues</i>	
Sougata Saha, Rohini Srihari	378

<i>Konkani ASR</i> Swapnil Fadte, Gaurish Thakkar, Jyoti Pawar	393
<i>Query-Based Summarization and Sentiment Analysis for Indian Financial Text by leveraging Dense Passage Retriever, RoBERTa, and FinBERT</i> Numair Shaikh, Jayesh Patil, Sheetal Sonawane	398
<i>Bias Detection Using Textual Representation of Multimedia Contents</i> Karthik L Nagar, Aditya Mohan Singh, Sowmya Rasipuram, Roshni Ramnani, Milind Savagaonkar, Anutosh Maitra	408
<i>Annotated and Normalized Causal Relation Extraction Corpus for Improving Health Informatics</i> Samridhi Dev, Aditi Sharan.....	417
<i>T20NGD: Annotated corpus for news headlines classification in low resource language, Telugu.</i> Chindukuri Mallikarjuna, Sangeetha Sivanesan.....	423
<i>Advancing Class Diagram Extraction from Requirement Text: A Transformer-Based Approach</i> Shweta , Suyash Mittal, Suryansh Chauhan.....	433
<i>L3Cube-IndicNews: News-based Short Text and Long Document Classification Datasets in Indic languages</i> Aishwarya Mirashi, Srushti Sonavane, Purva Lingayat, Tejas Padhiyar, Raviraj Joshi	442
<i>PoS to UPoS Conversion and Creation of UPoS Tagged Resources for Assamese Language</i> Kuwali Talukdar, Prof. Shikhar Kumar Sarma	450
<i>Mitigating Abusive Comment Detection in Tamil Text: A Data Augmentation Approach with Transformer Model</i> Reshma Sheik, Raghavan Balanathan, S Jaya Nirmala	460
<i>Dravidian Fake News Detection with Gradient Accumulation based Transformer Model</i> Eduri Raja, Badal Soni, Samir Kumar Borgohain, Candy Lalrempuii.....	466
<i>Automatic Speech Recognition System for Malasar Language using Multilingual Transfer Learning</i> Basil K. Raju, Leena G. Pillai, Kavya Manohar, Elizabeth Sherly	472
<i>Dy-poThon: A Bangla Sentence-Learning System for Children with Dyslexia</i> Dipshikha Podder, Manjira Sinha, Tirthankar Dasgupta, Anupam Basu	478
<i>Mitigating Clickbait: An Approach to Spoiler Generation Using Multitask Learning</i> Sayantan Pal, Souvik Das, Rohini Srihari	486
<i>Comparing DAE-based and MASS-based UNMT: Robustness to Word-Order Divergence in English-->Indic Language Pairs</i> Tamali Banerjee, Rudra Murthy, Pushpak Bhattacharyya	491
<i>MahaSQuAD: Bridging Linguistic Divides in Marathi Question-Answering</i> Ruturaj Ghatage, Aditya Ashutosh Kulkarni, Rajlaxmi Patil, Sharvi Endait, Raviraj Joshi	497
<i>CASM - Context and Something More in Lexical Simplification</i> Atharva Kumbhar, Sheetal Sonawane, Dipali Kadam, Prathamesh Mulay	506

<i>Improving the Evaluation of NLP Approaches for Scientific Text Annotation with Ontology Embedding-Based Semantic Similarity Metrics</i>	Pratik Devkota, Somya D. Mohanty, Prashanti Manda	516
<i>A Survey of using Large Language Models for Generating Infrastructure as Code</i>	K Ganesh Srivatsa, Sabyasachi Mukhopadhyay, Ganesh Katrapati, Manish Shrivastava	523
<i>First Attempt at Building Parallel Corpora for Machine Translation of Northeast India's Very Low-Resource Languages</i>	Atnafu Lambebo Tonja, Melkamu Mersha, Ananya Kalita, Olga Kolesnikova, Jugal Kalita	534
<i>"Kurosawa": A Script Writer's Assistant</i>	Prerak Gandhi, Vishal Pramanik, Pushpak Bhattacharyya	540
<i>Text-2-Wiki: Summarization and Template-driven Article Generation</i>	Jayant Panwar, Radhika Mamidi	551
<i>Blind Leading the Blind: A Social-Media Analysis of the Tech Industry</i>	Tanishq Chaudhary, Pulak Malhotra, Radhika Mamidi, Ponnurangam Kumaraguru	557
<i>A Unified Multi task Learning Architecture for Hate Detection Leveraging User-based Information</i>	Prashant Kapil, Asif Ekbal	567
<i>Mytho-Annotator: An Annotation tool for Indian Hindu Mythology</i>	Apurba Paul, Anupam Mondal, Sainik Mahata, Srijan Seal, Prasun Sarkar, Dipankar Das	574
<i>Transformer-based Bengali Textual Emotion Recognition</i>	Md. Atabuzzaman, Maksuda Bilkis Baby, Md Shajalal	579
<i>Citation-Based Summarization of Landmark Judgments</i>	Purnima Bindal, Vikas Kumar, Vasudha Bhatnagar, Parikshet Sirohi, Ashwini Siwal	588
<i>Aspect and Opinion Term Extraction Using Graph Attention Network</i>	Abir Chakraborty	594
<i>Abstractive Hindi Text Summarization: A Challenge in a Low-Resource Setting</i>	Daisy Lal, Paul Rayson, Krishna Singh, Uma Shanker Tiwary	603
<i>Verb Categorisation for Hindi Word Problem Solving</i>	Harshita Sharma, Pruthwik Mishra, Dipti Sharma	613
<i>ReviewCraft : A Word2Vec Driven System Enhancing User-Written Reviews</i>	Gaurav Sawant, Pradnya Bhagat, Jyoti Pawar	629
<i>Intent Detection and Zero-shot Intent Classification for Chatbots</i>	Sobha Lalitha Devi, Pattabhi RK Rao	636
<i>Coreference Resolution Using AdapterFusion-based Multi-Task learning</i>	Sobha Lalitha Devi, Vijay Sundar Ram, Pattabhi RK Rao	641
<i>Transfer learning in low-resourced MT: An empirical study</i>	Sainik Mahata, Dipanjan Saha, Dipankar Das, Sivaji Bandyopadhyay	646
<i>Transformer-based Nepali Text-to-Speech</i>	Ishan Dongol, Bal Krishna Bal	651

<i>Infusing Knowledge into Large Language Models with Contextual Prompts</i> Kinshuk Vasisht, Balaji Ganesan, Vikas Kumar, Vasudha Bhatnagar	657
<i>Can Big Models Help Diverse Languages? Investigating Large Pretrained Multilingual Models for Machine Translation of Indian Languages</i> Telem Joyson Singh, Sanasam Ranbir Singh, Priyankoo Sarmah	663
<i>Revolutionizing Authentication: Harnessing Natural Language Understanding for Dynamic Password Generation and Verification</i> Akram Al-Rumaim, Jyoti D. Pawar	670
<i>Leveraging Empathy, Distress, and Emotion for Accurate Personality Subtyping from Complex Human Textual Responses</i> Soumitra Ghosh, Tanisha Tiwari, Chetna Painkra, Gopendra Vikram Singh, Asif Ekbal	681
<i>A Baseline System for Khasi and Assamese Bidirectional NMT with Zero available Parallel Data: Dataset Creation and System Development</i> Kishore Kashyap, Kuwali Talukdar, Mazida Ahmed, Parvez Boruah	678
<i>Parts of Speech (PoS) and Universal Parts of Speech (UPoS) Tagging: A Critical Review with Special Reference to Low Resource Languages</i> Kuwali Talukdar, Prof. Shikhar Kumar Sarma, Manash Pratim Bhuyan	705
<i>Neural Machine Translation for Assamese-Bodo, a Low Resourced Indian Language Pair</i> Kuwali Talukdar, Prof. Shikhar Kumar Sarma, Farha Naznin, Kishore Kashyap, Mazida Ahmed, Parvez Boruah	716
<i>Attentive Fusion: A Transformer-based Approach to Multimodal Hate Speech Detection</i> Atanu Mandal, Gargi Roy, Amit Barman, Indranil Dutta, SudipNaskar	722
<i>Handwritten Text Segmentation Using U-Net and Shuffled Frog-Leaping Algorithm with Scale Space Technique</i> MoumitaMoitra, Sujan Kumar Saha	731
<i>Identifying Correlation between Sentiment Analysis and Septic News Sentences Classification Tasks</i> Soma Das, Sagarika Ghosh, Sanjay Chatterji	740
<i>KT2: Kannada-Tulu Parallel Corpus Construction for Neural Machine Translation</i> Asha Hegde, Hosahalli Lakshmaiah Shashirekha	745
<i>Word Sense Disambiguation for Marathi language using Supervised Learning</i> Rasika Ransing, Archana Gulati	756
<i>Enhancing Telugu Part-of-Speech Tagging with Deep Sequential Models and Multilingual Embeddings</i> Sai Rishith Reddy Mangamuru, Sai Prashanth Karnati, Bala Karthikeya Sajja, Divith Phogat, Premjith B	762
<i>Unlocking Emotions in Text: A Fusion of Word Embeddings and Lexical Knowledge for Emotion Classification</i> Anjali Bhardwaj, Nesar Ahmad Wasi, Muhammad Abulaish	768
<i>Convolutional Neural Networks can achieve binary bail judgement classification</i> Amit Barman, Devangan Roy, Debapriya Paul, Indranil Dutta, Shouvik Kumar Guha, Samir Karmakar, SudipNaska	775

<i>Multiset Dual Summarization for Incongruent News Article Detection</i> Sujit Kumar, Rohan Jaiswal, Mohit Ram Sharma, SanasamRanbir Singh	781
<i>A comparative study of transformer and transfer learning MT models for English-Manipuri</i> Kshetrimayum Boynao Singh, Ningthoujam Avichandra Singh, Loitongbam Sanayai Meetei, Ningthoujam Justwant Singh, Thoudam Doren Singh, Sivaji Bandyopadhyay	793
<i>The Current Landscape of Multimodal Summarization</i> Atharva Kumbhar, Harsh Kulkarni, Atmaja Mali, Sheetal Sonawane, Prathamesh Mulay	799
<i>Automated Answer Validation using Text Similarity</i> Balaji Ganesan, Arjun Ravikumar, Lakshay Piplani, Rini Bhaumik , Dhivya Padmanaban, Shwetha Narasimhamurthy, Chetan Adhikary, Subhash Deshapogu	809
<i>QeMMA: Quantum-Enhanced Multi-Modal Sentiment Analysis</i> Arpan Phukan, Asif Ekbal	817
<i>Automatic Data Retrieval for Cross Lingual Summarization</i> Nikhilesh Bhatnagar, Ashok Urlana, Pruthwik Mishra, Vandan Mujadia, Dipti Sharma	824
<i>Cross-Lingual Fact Checking: Automated Extraction and Verification of Information from Wikipedia using References</i> Shivansh Subramanian, Ankita Maity, Aakash Jain, Bhavyajeet Singh, Harshit Gupta, Lakshya Khanna, Vasudeva Varma	830
<i>Combining Pre trained Speech and Text Encoders for Continuous Spoken Language Processing</i> Karan Singla, Mahnoosh Mehrabani, Daniel Pressel, Ryan Price, Bhargav Srinivas Chinnari, Yeon- Jun Kim, Srinivas Bangalore.....	834

Program

Friday, December 15, 2023

8:30 AM - 09:45 AM	<i>Registration</i>
10:00 AM - 10:30 AM	<i>Inaugural Ceremony</i>
10:30 AM - 11:30 AM	<i>Keynote 1: Are rule-based approaches a thing of the past? The case of anaphora resolution, Ruslan Mitkov, Lancaster University (UK)</i>
11:30 AM - 12:00 PM	<i>Tea Break</i>
12:00 PM - 01:00 PM	<i>Industry Session I - Augnito India Private Limited</i>
01:00 PM - 02:00 PM	<i>Lunch</i>
02:00 PM - 03:30 PM	<i>Oral Presentation Session 1 – 4</i>
03:30 PM - 05:30 PM	<i>Poster Booster Session followed by Poster Display 1 – 4</i>
05:30 PM - 06:00 PM	<i>Tea Break</i>
06:00 PM - 07:00 PM	<i>Keynote 2: Who is Afraid of Spurious Correlation in Classification? (Online), Josef Van Genabith, German Research Center for Artificial Intelligence</i>
07:00 PM - 10:00 PM	<i>Banquet</i>

Saturday, December 16, 2023

10:00 AM - 11:00 AM	<i>Keynote 3: Challenges in Speech to Speech Language Translation: Prosody and Discourse, Rajeev Sangal, IIT Hyderabad, India</i>
11:00 AM - 11:15 AM	<i>Industry Session II - Rikaian Technology Pvt. Ltd</i>
11:30 AM - 01:00 PM	<i>Oral Presentation Session 5 - 8</i>
01:00 PM - 02:00 PM	<i>Lunch</i>
02:00 PM - 04:45 PM	<i>Poster Booster Session followed by Poster Display 5 - 8</i>
04:45 PM - 05:00 PM	<i>Tea Break</i>
05:00 PM - 06:00 PM	<i>Industry Session III - Adobe, TCS Research NLP AI Executive Council Meeting</i>
06:00 PM - 06:25 PM	<i>Buffer</i>
06:25 PM - 07:00 PM	<i>Valedictory Session + Certification</i>
