

List of Reviewers

Area Chairs

Jennifer Chu-Carroll (IBM T.J. Watson Research Center, USA)

Discourse and Dialogue

Joshua Goodman (Microsoft Research, USA)

Speech, Systems and Evaluation

Pierre Isabelle (Xerox Research Centre Europe, France)

Machine Translation, Multilinguality

Adam Kilgarriff (ITRI, University of Brighton, UK)

Lexicon and Semantics

Lillian Lee (Cornell University, USA)

Corpus-based Natural Language Processing

Adwait Ratnaparkhi (IBM T.J. Watson Research Center, USA)

Machine Learning and Statistical Methods for Syntax

Ehud Reiter (University of Aberdeen, UK)

Generation and Multi-Modality

James Rogers (Earlham College, USA)

Syntax, Grammars, Morphology and Phonology

David Weir (University of Sussex, UK)

Parsing Algorithms

Reviewers

Anne Abeille (Université Paris 7, France), Steve Abney (AT&T Labs - Research, USA), Eneko Agirre (University of the Basque Country, Spain), Jan Alexandersson (DFKI GmbH, Germany), Rie Kubota Ando (Cornell University, USA), Elizabeth André (Universität Augsburg, Germany), Susan Armstrong (University of Geneva, Switzerland), Sue Atkins (Lexicography Masterclass and ITRI, University of Brighton, UK)

Srinivas Bangalore (AT&T Labs - Research, USA), Roberto Basili (University of Rome, Italy), John Bateman (University of Bremen, Germany), Tilman Becker (DFKI GmbH, Germany), Ken Beesley (Xerox Research Centre Europe, France), Nuria Bel (Universitat de Barcelona and Universitat Pompeu Fabra, Spain), Dan Bikel (University of Pennsylvania, USA), Patrick Blackburn (LORIA, France), Rens Bod (University of Amsterdam, the Netherlands), Branimir Boguraev (IBM T.J. Watson Research Center, USA), Christian Boitet (Université Joseph Fourier, France), Pierre Boullier (INRIA Rocquencourt, France), Gosse Bouma (University of Groningen, the Netherlands), Thorsten Brants (Xerox PARC, USA), Michael Brent (Washington University in St. Louis, USA), Chris Brew (The Ohio State University, USA), Eric Brill (Microsoft Research, USA), Ted Briscoe (University of Cambridge, UK), Rebecca Bruce (University of North Carolina at Asheville, USA), Harry Bunt (Tilburg University, the Netherlands), Susanne Burger (Carnegie Mellon University, USA), Stephan Busemann (DFKI GmbH, Germany)

Mary Elaine Califf (Illinois State University, USA), Sharon Caraballo (Georgetown University, USA), Sandra Carberry (University of Delaware, USA), Claire Cardie (Cornell University, USA), John Car-

roll (University of Sussex, UK), Eugene Charniak (Brown University, USA), John Chen (University of Delaware, USA), Stanley Chen (IBM T.J. Watson Research Center, USA), David Chiang (University of Pennsylvania, USA), Lee-Feng Chien (Academia Sinica, Taiwan), Eric de la Clergerie (INRIA Rocquencourt, France), Mike Collins (AT&T Labs - Research, USA), Mark Core (University of Edinburgh, UK)

Walter Daelemans (University of Antwerp, Belgium), Ido Dagan (Bar-Ilan University and FocusEngine, Israel), Robert Dale (Macquarie University, Australia), Morena Danieli (Loquendo, Italy), Sabine Deligne (IBM T.J. Watson Research Center, USA), Judy Delin (University of Stirling, UK), Renato De Mori (University of Avignon, France), Barbara Di Eugenio (University of Illinois at Chicago, USA), William Dolan (Microsoft Research, USA), Christine Doran (The MITRE Corporation, USA), John Dowding (NASA Ames Research Center, USA)

Marcus Egg (Universität des Saarlandes, Germany), Andreas Eisele (DFKI GmbH, Germany), Michael Elhadad (Ben-Gurion University, Israel), Tomaž Erjavec (Jožef Stefan Institute, Slovenia), Roger Evans (ITRI, University of Brighton, UK), Christiane Fellbaum (Princeton University, USA), Charles Fillmore (ICSI and University of California at Berkeley, USA), Thierry Fontenelle (EURALEX and Liège University, Belgium), Eric Fosler-Lussier (Bell Labs, Lucent Technologies, USA), George Foster (Amika-Now, Canada), Bob Frank (Johns Hopkins University, USA), Alex Franz (Google, USA), Atsushi Fujii (University of Library and Information Science Tsukuba, Japan)

Bjoern Gambaeck (Swedish Institute of Computer Science, Sweden), Eric Gaussier (Xerox Research Centre Europe, France), Laurie Gerber (University of Southern California, USA), Greg Grefenstette (Xerox Research Centre Europe, France)

Udo Hahn (Freiburg University, Germany), Walther von Hahn (University of Hamburg, Germany), Jan Hajic (Charles University, Czech Republic), Susan Haller (University of Wisconsin - Parkside, USA), Henk Harkema (University of California Los Angeles, USA), Vasileios Hatzivassiloglou (Columbia University, USA), Peter Heeman (Oregon Graduate Institute, USA), John Henderson (The MITRE Corporation, USA), Mark Hepple (University of Sheffield, UK), Ulf Hermjakob (USC Information Sciences Institute, USA), Julia Hirschberg (AT&T Labs - Research USA), Graeme Hirst (University of Toronto, Canada), Beth Ann Hockey (RIACS/NASA Ames Research Center, USA), Thomas Hofmann (Brown University, USA), Taiyi Huang (Institute of Automation, Chinese Academy of Science, China), Rebecca Hwa (University of Maryland, USA)

Nancy Ide (Vassar College, USA), Hitoshi Iida (Sony Labs, Japan), Kentaro Inui (Kyushu Institute of Technology, Japan), Hitoshi Isahara (Communications Research Laboratory Kyoto, Japan), Masato Ishizaki (JAIST, Japan)

Thorsten Joachims (GMD, Germany), Mark Johnson (Brown University, USA), Kristiina Jokinen (University of Art and Design, Finland), Pamela Jordan (University of Pittsburgh, USA)

Heiki-Jaan Kaalep (University of Tartu, Estonia), Laura Kallmeyer (Université Paris 7, France), Candace Kamm (AT&T Labs - Research, USA), Lauri Karttunen (Xerox PARC, USA), Bill Keller (University of Sussex, UK), Richard Kittredge (CoGenTex Inc., USA), Dimitrios Kokkinakis (Göteborg University, Sweden), Andras Kornai (Northern Light, USA), Kimmo Koskenniemi (University of Helsinki, Finland), Hans-Ulrich Krieger (DFKI GmbH, Germany), Bob Krovetz (NEC Research Institute, USA), Yuval Krymolowski (Bar-Ilan University, Israel), Seth Kulick (University of Pennsylvania, USA)

Philippe Langlais (University of Montreal, Canada), Guy LaPalme (University of Montreal, Canada), Alex Lascarides (University of Edinburgh, UK), Alberto Lavelli (ITC-IRST, Italy), Alon Lavie (Carnegie Mellon University, USA), Gary Geunbae Lee (POSTECH, Korea), Alessandro Lenci (University of Pisa and Istituto di Linguistica Computazionale CNR, Italy), Kevin Lenzo (Carnegie Mellon University and Cepstral, LLC, USA), James Lester (North Carolina State University, USA), Hang Li (NEC Cor-

poration, Japan), Dekang Lin (University of Alberta, Canada), Diane Litman (AT&T Labs - Research, USA)

Elliott Macklovitch (University of Montreal, Canada), Suresh Manandhar (University of York, UK), Daniel Marcu (USC/ISI, USA), Carlos Martin Vide (Rovira i Virgili University, Spain), Yuji Matsumoto (Nara Institute of Science and Technology, Japan), John Maxwell (Xerox PARC, USA), Tony McEnery (Lancaster University, UK), Susan McRoy (University of Wisconsin - Milwaukee, USA), Dan Melamed (West Group Inc., USA), Chris Mellish (University of Edinburgh, UK), Scott Meredith (Microsoft Research, USA), Scott Miller (BBN Technologies, USA), Guido Minnen (Motorola, USA), Vibhu Mittal (Google, USA), Christof Monz (University of Amsterdam, the Netherlands), Johanna Moore (University of Edinburgh, UK), Robert Moore (Microsoft Research, USA), Frank Morawietz (University of Tübingen, Germany), Drew Moshier (Chapman University, USA), Larry Moss (Indiana University, USA)

Masaaki Nagata (NTT, Japan), Mark-Jan Nederhof (University of Groningen, the Netherlands), Rani Nelken (Technion, Israel), Herman Ney (University of Aachen, Germany), Hwee Tou Ng (DSO National Laboratories, Singapore), Anton Nijholt (University of Twente, the Netherlands), Takashi Ninomiya (University of Tokyo, Japan), Partha Niyogi (University of Chicago, USA), Eric Nyberg (Carnegie Mellon University, USA)

John Oberlander (University of Edinburgh, UK), Dick Oehrle (IRCS, USA), Stephan Oepen (YY Software, USA), Kemal Oflazer (Sabanci University, Turkey)

Adi Palm (University of Passau, Germany), Martha Palmer (University of Pennsylvania, USA), Cecile Paris (CSIRO, Australia), Ted Pedersen (University of Minnesota Duluth, USA), Gerald Penn (University of Toronto, USA), Carolyn Penstein Rose (University of Pittsburgh, USA), David Pierce (Cornell University, USA), Vito Pirelli (CNR, Italy)

Dragomir Radev (University of Michigan, USA), Lance Ramshaw (BBN Technologies, USA), Jeff Reynar (Microsoft Research, USA), Giuseppe Riccardi (AT&T Labs-Research, USA), Stefan Riezler (Xerox PARC, USA), German Rigau (Universitat Politècnica de Catalunya, Spain), Ellen Riloff (University of Utah, USA), Hae-chang Rim (Korea University, UK), Eric Ringger (Microsoft Research, USA), Graeme Ritchie (University of Edinburgh, UK), Brian Roark (Brown University, USA), Jacque Robin (University of Pernambuco, Brazil), Dan Roth (University of Illinois Urbana/Champaign, USA)

Geoff Sampson (University of Sussex, UK), Ken Samuel (The MITRE Corporation, USA), Christer Samuelsson (Inzigo, Canada), Mark Sanderson (University of Sheffield, UK), Anoop Sarkar (University of Pennsylvania, USA), Hinrich Schuetze (Outride Inc., USA), Satoshi Sekine (New York University, USA), Chilin Shih (Bell Labs, Lucent Technologies, USA), Khalil Sima'an (University of Amsterdam, the Netherlands), Ronnie Smith (East Carolina University, USA), Harry Somers (UMIST, UK), Karen Sparck-Jones (Cambridge University, UK), Mark Steedman (University of Edinburgh, UK), Matthew Stone (Rutgers University, USA), Michael Strube (European Media Lab, Germany), Key-Yih Su (BDC Corp., Taiwan)

Yuka Tateisi (University of Tokyo, Japan), David Traum (USC/ICT, USA), Jun-Ichi Tsujii (University of Tokyo, Japan), Dan Tufis (Romanian Academy, Romania)

Antal van den Bosch (Tilburg University, the Netherlands), Keith vander Linden (Calvin College, USA), Kees van Deemter (University of Brighton, UK), Dimitra Vergyi (SRI International, USA)

Leo Wanner (Stuttgart University, Germany), Karen Ward (University of Texas at El Paso, USA), Todd Ward (IBM T.J. Watson Research Center, USA), John White (PRC Inc., USA), Janyce Wiebe (University of Pittsburgh, USA), Shuly Wintner (University of Haifa, Israel), Kent Wittenburg (Verizon Laboratories, USA)

David Yarowsky (Johns Hopkins University, USA)

Remi Zajac (New-Mexico State University, USA), Jakob Zavrel (Tilburg University, the Netherlands),
Fang Zheng (Tsinghua University, China), Michael Zock (LIMSI, France)
