

Initial starting point

Classifier development

Analysis

Filter data
from
chosen
forum

Annotate a
random sample
of forum posts

Develop 4
classifiers
based on
annotated data

Evaluation of
classifiers

Run all
classifiers on
all posts in the
forum

Perform
statistical
analysis on
findings

Collection of additional data

Filter archive
links and scrape
them for original
domain

Filter links to
Twitter/X

Scrape content
from both
original link and
archive link

Analyse
differences
between the
archived and
current version

Perform
Topic
Analysis

Has
the post been
deleted?

No
