Data is collected by authors

D3. Did you discuss whether and how consent was obtained from people whose data you're using/curating (e.g., did your instructions explain how the data would be used)?

Data is collected by authors

D4. Was the data collection protocol approved (or determined exempt) by an ethics review board?

It does not have ethical issues.

E. Did you use AI assistants (e.g., ChatGPT, Copilot) in your research, coding, or writing?

We used Gemini to assist with writing refinement.
