The screenshot displays a user interface for a question answering task. On the left, under the heading "Passage", there is a text block about Charles V and Charles VI. On the right, under the heading "Type a question based on the passage below", there is a text input field containing the question "When was Charles VI born?". Below this, there are two main sections: "Your Answer" and "AI predicted the answer below (wait for answer to appear below)". The "Your Answer" section has radio buttons for "Date", "Number", and "Select span". The "Date" option is selected, and there are input fields for "Year" (containing "1368"), "Month", and "Date". The "AI predicted the answer below" section shows a red bar with the number "11". At the bottom right, there are three buttons: "READY TO SUBMIT HIT", "PREVIOUS PASSAGE", and "NEXT PASSAGE".
